6 January 1967

25X1

MEMORANDUM FOR: Chief, Imagery Analysis Division, CIA

ATTENTION:

SUBJECT:

Advanced Tilt Top Light Table

25X1

1. On 19 December 1966 two Advanced Tilt Top Light Tables were delivered to your organization for evaluation and at that time it was requested that your evaluation be directed to constructive criticism of all the features of these light tables from the standpoint of the desirability of combining all the superior features into a single advanced light table prior to production.

2. Since it is desirable to initiate the advanced project this fiscal year, it is necessary to have your comments by 12 January 1967, in order to enable my staff sufficient time to initiate the development contract by the end of the fiscal year.
